## Natural Remedies for Garden Pests

Plant these natural pest deterrents in your garden:

Calendula	Mint
Lavendar	Sage
Marigold	Dill
Nasturtium	Fennel
Thyme	Allium
Rosemary	Petunia
Lemongrass	Chrysanthemum
Basil	

These plants will attract birds that eat harmful bugs:

Fruit trees	Sunflower
Coneflower	Sumac
Cosmos	Elderberry
Goldenrod	Blueberry
Marigold	Blackberry

It's also smart to have a bird bath, bird feeder, and nesting box available close to, or in, your garden.
